

HEALTHY CIRCULATION[†]

A DIETARY SUPPLEMENT TO SUPPORT HEALTHY NITRIC OXIDE LEVELS & VASCULAR HEALTH[†]

Supporting Healthy Levels of Nitric Oxide Levels and Vascular Health.[†]

HEALTHY CIRCULATION[†] represents the gold standard in Nitric Oxide (NO) nutritional support.[†] It contains targeted, precision ingredients aimed at blood vessel support.[†] Citrulline and Arginine both play a role in Nitric Oxide production itself, and Proline and Lysine both lend direct support to the integrity of the blood vessel wall.[†]

NO and Vascular Health

NO is a signaling molecule, which means it is part of a system that aids in the communication that ultimately dictates the basic activities of cells and cell actions. This allows cells to adapt to the ever-changing micro environment and facilitate proper development, immune responses and tissue repair.[†]

Since NO is produced by the endothelial cells, it stands to reason that if there is damage to the vascular cell walls via homocysteine levels and free radical damage, the production is going to suffer.

This also becomes a vicious cycle; the endothelial cells get damaged, the NO production falls, the vessels then become more constricted and prone to additional damage and the cycle continues.

Supplement Facts

Serving Size 1 Scoop (10.3 g)

Amount Per Serving

L-Citrulline	3,000 mg
L-Arginine	3,000 mg
L-Proline	1,000 mg
L-Lysine	150 mg
Stevia Leaf Extract	180 mg

Other Ingredients: citric acid, pineapple juice powder, tropical fruit punch flavor, silica, beet juice powder.

Warning: Persons with kidney disorders should consult with their healthcare practitioner prior to using this product. If pregnant or nursing, consult your healthcare practitioner before taking this product.

Caution: Discontinue use 2 weeks prior to surgery.

WARNING: This product contains lead, a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

Suggested Use: As a dietary supplement, mix one scoop (10.3 g) per day in 8 oz. juice or water and take on an empty stomach or as directed by your healthcare practitioner.
