

HEALTHY DHEA 25MG†

A DIETARY SUPPLEMENT TO HELP MAINTAIN
DHEA LEVELS†

A dietary supplement to help maintain normal levels of the DHEA hormone.*

DHEA is an important adrenal hormone that supports healthy aging.* **DHEA** levels decline with age and adrenal stress. **DHEA** supports immune system and thyroid function, as well as memory and energy function.*

About Healthy DHEA 25 mg†

DHEA is a steroid hormone produced from cholesterol by the adrenal glands. It is the most abundant steroid in the bloodstream and is present at even higher levels in brain tissue.

DHEA is a precursor to many steroid sex hormones, including estrogen and testosterone. With age, **DHEA** production declines usually peaking between the ages of 25-30 and gradually falling to a decline of 90% by age 60.

How DHEA works

DHEA seems to support IGF-1 levels (insulin growth factor) and support decreased levels of cortisol.* IGF-1 is the hormone or growth stimulating metabolite produced by the metabolism of HGH, and is responsible for the beneficial effects of elevated human growth hormone. Cortisol is a stress hormone (HGH). With aging there is a decline in **DHEA** and an elevation of cortisol. High and prolonged levels of cortisol in the bloodstream (like those associated with chronic stress) have been shown to have negative effects such as:

- Impaired cognitive performance and suppressed thyroid function
 - Blood sugar imbalances
 - Decreased bone density and a decrease in muscle tissue
 - Higher blood pressure and lowered immunity
- Elevating **DHEA** levels is a way to help manage high cortisol levels and improve IGF-1 production.*

Studies have shown that supplementing with DHEA may benefit:

- the immune system*
 - blood sugar metabolism and weight management*
 - brain and bone health*
 - heart health*
 - estrogen and testosterone levels*
- **Factors that contribute to low DHEA levels include:**
 - Aging, Sugar, Nicotine
 - Caffeine, Alcohol, Nutritional imbalance
 - A vegetarian diet low in cholesterol and healthy fats

DHEA 25 mg

Supplements Facts

Serving Size: 1 Capsule

Amount Per Serving

DHEA (micronized) 25 mg

Other ingredients: vegetable cellulose (capsule), vegetarian leucine.

Warning: NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF PREGNANT OR NURSING. Consult a physician or licensed qualified healthcare professional before using this product if you have, or have a family history of, prostate cancer, prostate enlargement, heart disease, low "good" cholesterol (HDL), or if using any other dietary supplement, prescription drug, or over-the-counter drug. Do not exceed recommended serving. Exceeding recommended serving may cause serious adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician or licensed qualified healthcare professional immediately if you experience rapid heart-beat, dizziness, blurred vision, or other similar symptoms. KEEP OUT OF REACH OF CHILDREN. To report any adverse events call 1-800-332-1088.

- **Caution:** May interfere with birth control medications and devices.
- **Suggested Use:** As a dietary supplement, Adults (18 years and over), take 1 capsule 3 times daily, or as directed by your healthcare practitioner.
